

PROGRAM DESCRIPTION

A rewarding career in healthcare awaits those who choose radiology as a profession. Radiographers, or radiologic technologists, have completed special training to produce images of organs, limbs and other parts of the body that doctors then use to diagnose and determine treatment plans for disease and injuries. Careers in radiography have become more and more diverse as the field of radiology has evolved from the discovery of the x-ray to complex and sophisticated scanning methods like x-ray to complex and sophisticated scanning methods such as magnetic resonance imaging (MRI). As the technology has expanded, there has been an increasing need for highly trained men and women to fill the varied positions available to radiologic technologists.

The field of radiography offers the opportunity to provide vital service as a key member of the healthcare team. The Radiography Program at Center for Allied Health Education (CAHE) has a long history of providing high quality training in radiography. The program is noted for the excellence of its classroom teachers and clinical instructors. Students benefit from a full varied curriculum with both didactic and clinical experience components. Individuals receive the knowledge and skills necessary to provide superior radiologic service and thereby achieve great success in the field.

Graduates of CAHE's Radiography Program are qualified to sit for the American Registry of Radiologic Technologists National Certification Exam and New York State Department of Health licensure. The course of instruction follows the latest Standards for an Accredited Education Program in Radiologic Sciences as published by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

Center for Allied Health Education

1401 Kings Highway
Brooklyn, NY 11229

Tel: 718.645.3500

Center for Allied Health Education complies with the Federal Education Rights and Privacy Act regulations and a report on our completion and graduation rates is available on our website (www.cahe.edu). Students can also request a complete annual campus security report from the administrative office. This report includes statistics for the previous three years concerning reported crimes that occurred on campus in certain off-campus buildings or property owned or controlled by Center for Allied Health Education and on public property within or immediately adjacent to and accessible from the campus. The report further includes institutional policies concerning campus security, such as policies concerning sexual assault and other matters.

ADMISSION REQUIREMENTS

- Applicants must be at least 18 years of age prior to orientation.
- Applicants must have completed a recognized high school or equivalent. No online high school diplomas will be accepted if high school is the highest level of education completed.
- Applicants must meet the technical standards of the program which can be viewed at www.cahe.edu/technicalstandards.

APPLICATION PROCESS

To begin the application process, please visit www.cahe.edu/apply.

CLINICAL SITES

Clinical Education is an integral part of each program offered at Center for Allied Health Education. It allows the student to develop the concepts and skills taught in the classroom and apply them to patients in a clinical setting. Skills are learned in the classroom, demonstrated in the laboratory and are refined in the clinic. Working alongside qualified clinical staff with real patients provides students with the opportunity to develop confidence, become competent in their skills, and accustomed to the healthcare environment they will ultimately seek to work in. Center for Allied Health Education is proud of its strong clinical affiliates, which include major hospitals and clinical sites throughout the metropolitan area, such as:

- Coney Island Hospital
- Flushing Hospital
- Miamonidies Medical Center
- Montefiore Hospital
- Mount Sinai Hospital
- New York-Presbyterian Brooklyn Methodist Hospital
- New York Presbyterian Lower Manhattan Hospital
- NYU Lutheran Medical Center
- Richmond University Medical Center
- Staten Island University Hospital (North & South)
- SUNY Downstate Medical Center
- Wyckoff Heights Medical Center

FINANCIAL AID

Financial Aid is available for those who qualify. Contact the Financial Aid Department for additional information.

Program Courses Include:

- Advanced Imaging Modalities
- Career Development
- Clinical Education
- Computed Tomography
- Ethics & Law
- Fundamentals of Radiologic Science
- Human Structure & Function
- Image Analysis
- Radiation Physics
- Mammography
- Medical Terminology
- Patient Care
- Principles of Radiographic Exposure
- Radiation Biology & Advanced Protection
- Radiographic Pathology
- Radiographic Procedures & Lab
- Registry Review
- Special Procedures

LICENSED BY THE STATE OF NEW YORK,
NEW YORK STATE EDUCATION DEPARTMENT

ACCREDITATION

Center for Allied Health Education is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES). CAHE's Radiography Program is programmatically accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and is recognized by the New York State Department of Health.

The program's effectiveness data is available on JRCERT's website at www.jrcert.org.

COLLEGE AFFILIATIONS

CAHE's Radiography Program has agreements in place with St. Francis College (Brooklyn, NY) and Clarion University of Pennsylvania's online college programs which stipulate that graduates of the Radiography Program will receive credits towards a Bachelor's degree from these institutions. Additionally, students who enroll into the program without a degree will earn an associate degree from SUNY Empire State College upon successful completion of all program requirements, as an associate degree from a regionally accredited university is required to sit for the ARRT exam.

Please refer to www.cahe.edu for additional information, as well as tuition and financial aid information.
